

LDA AVATAR/FLOWSHEET

How to document line insertion, assessment and how to complete or discontinue an existing line

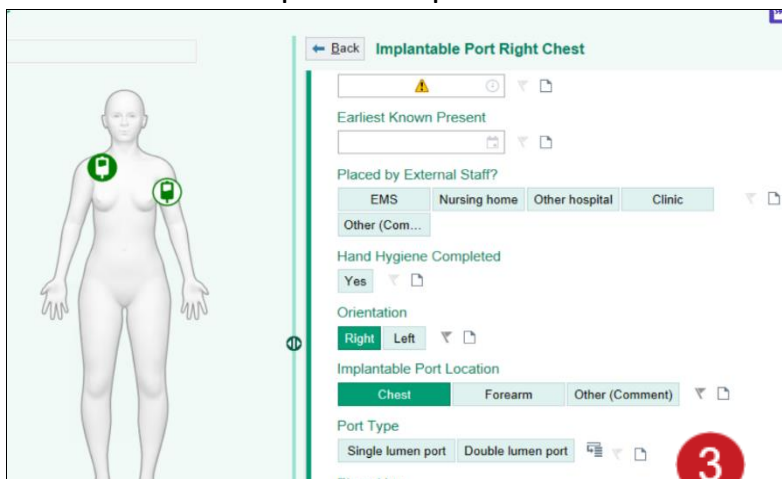

- To document line insertion go to the LDA Avatar on the top left of the flowsheets tab (1)

- (2) Click the +Add button and add your line, or select from (1)Mediport or (2) PIV

- Note: You can also add drains, wounds, etc...
- To document a implantable port and document it as a power port see below(3):

Enter a comment under port type by clicking the paper icon next to the port type (3)

Port Type

Single lumen port Double lumen port

4

Once you document a comment it will indicate there is text there by adding lines to the paper. (4)

Implantable Port Right Chest

Properties Orientation: Right Show all properties

Line Necessity

5

Once you have the established line you can click the “show all properties” hyperlink and will indicate this line has a comment associated with it. Hover to discover the comment “power port”

- Documenting assessment of a line (PIV or CVAD) under IV assessment (3), this includes unsuccessful insertion
